INSTITUTE PROFILE:

Fr. C Rodrigues Institute of Technology has, within a short span of time, established itself as a leading engineering college in Mumbai University. Though its reputation rests mainly on the high quality, value based technical education that it imparts, it has to its credit a verdant, well maintained Campus and extensive facilities. The Department of Mechanical Engineering is one of its three accredited departments, which is being headed by Dr. Nilaj Deshmukh.

The aim of the department is to disseminate knowledge and technologies through quality teaching, research and its applications in mechanical and allied disciplines. The Department has well-equipped laboratories to impart sound practical knowledge of the subject. The Department has qualified and dedicated faculty members. To develop skill sets of the students, the department organizes lecture series and hands-on training courses in different domain areas.

The Department has Mechanical Engineering Students Association and Students' Chapters of Professional Bodies, like ISHARE, SAE, etc. to bridge the gap between academia and industry. The department also runs a Post Graduate program with specialization in Machine Design and a Doctoral Program in Mechanical Engineering. These students play a key role in the development of research activities of the department.
